COVID-19 Safety Protocol Policy for Symptoms and Positive COVID Test Results

[Updated 1/26/2023]

Policy Basis

In general, all policies adhered to by Trinity College of Florida follow either the recommendations made by the CDC or by the Florida Department of Health.

Policy for Exposure to COVID or COVID Symptoms

- Anyone exhibiting symptoms or has been exposed to a person that is confirmed positive for COVID should follow the guidelines of the CDC as described in the Isolation and Exposure Calculator.
    - Anyone exhibiting symptoms of the following should report to their supervisor (If an employee) or Director of Student Life (if a student):[1]
        - Fever or feeling feverish (chills, sweating)
        - Cough
        - Mild or moderate difficulty breathing
        - Sore throat
        - Muscle aches or body aches
        - Vomiting or diarrhea
    - If you have been exposed to someone who tested positive for COVID
        - Be alert for symptoms. Watch for fever, cough, shortness of breath, or other symptoms of COVID-19.
        - Take your temperature and follow CDC guidance if you have symptoms.
- Who should I contact if I have symptoms, have been exposed, or tested positive?
    - Alert your supervisor if an employee,

- - Director of Student Development if a student.

Policy for Visitors with Symptoms of COVID

- Visitors should not enter any building on campus if they are experiencing the above symptoms.

Policy for Positive COVID Test Results

- If you test positive for COVID, you should follow the guidelines of the CDC as described in the [Isolation and Exposure Calculator](#).
- Employees and Students should coordinate their responsibilities with their supervisor or professor during their isolation period.
